

Patient Communication shouldn't be that difficult.

➤ **CONNECT**
with your patients

➤ **UNDERSTAND**
their needs

➤ **CALM**
their worries

Available in 17 different languages.

Word Board

Picture Board

We are proud to introduce you to the new EZ Picture Board!

John Costello, MA, SLP, world-renowned speech language pathologist and presenter from Children's Hospital Boston has been working with us in developing the first and only evidence-based, patient-designed Picture Communication Board for patients unable to speak. We designed and tailored this communication board to reflect one-on-one patient interaction along with three years of research with non-verbal patients. Please take a quick moment and visit our website. http://www.healthcareinspirations.com/hci_ezboard.html.

Our products will help improve patient care.

IMPROVE PATIENT OUTCOMES

Reduce
Anxiety &
Sedation

Improve
Patient
Participation

Improve
Pain
Management

Improve
Patient
Satisfaction

Expedite
Extubation &
Recovery

Improve
Clinical
Outcomes

The Joint Commission is focusing on organizations that provide patients a means to effectively communicate. Best practice models suggest having readily available patient communication resources at the bedside, including patient communication boards. Our E|Z Picture Board is the only evidence-based, patient designed patient communication boards shown to help improve patient outcomes! For further information on educational resources and research, please visit our website, http://www.healthcareinspirations.com/hci_ezboard.html.
